PERSONAL PROJECTS

3D WEDDING DRESS PORTAL (FYP)

- In our project, two categories are given one for each bride and groom's dress. The bride and groom select the dress they want to buy, and that appears on a 3D dummy wearing that dress.
- Technologies Used: **Html** - **CSS** - **JavaScript** - **C#** - **Asp.Net MVC** - **SQL** - **Adobe Photoshop**.

VIDEO SY (Video Rental App)

- This application records video rental information for each customer. Also, use API for rendering frontend view and CRUD Operations on Movies and Customers Table.
- User and Social Logins, Auto-Completion, Searching, Sorting, Client-Side Validation, and Pagination are also included in this application features. [LIVE WORKING PROJECT LINK](#).
- Technologies Used: **Html** - **CSS** - **Bootstrap5** - **JavaScript** - **Jquery** - **C#** - **Asp.Net MVC 5** - **Asp.Net Web Api** - **Datatables.js** - **Bootbox.js** - **Toastr.js** - **Asp.Net Identity** - **SQL**.

FORKIFY APP

- Forkify recipe web application builds using the Forkify API to allow users to search, view, modify, bookmark, and add recipes.
- Built using the **MVC** architecture. [LIVE WORKING PROJECT LINK](#).
- Technologies and libraries Used: **HTML5** - **SASS** - **JS** - **Netlify** - **PARCEL**.

MAPTY APP

- Mapty application's central part is a vast map that loads the map on your current position by using LEAFLET API.
- The goal of this application is to log workouts of two options running and cycling. It renders workout popups on the left sidebar you can press one of them and the map will move to that workout position. [LIVE WORKING PROJECT LINK](#).
- Technologies Used: **Html5** - **CSS3** - **JavaScript**.

BANKIST APP

- This web application is based on a banking app with login users, transfer money, request loan, show movements, and also sort it.
- It calculates the total balance, interest rate, deposit, and withdrawal amount sum, and also formats it according to internationalization API. Username: js, Password: 1111. [LIVE WORKING PROJECT LINK](#).
- [MODERN_BANKIST_APP_MARKETING_PAGE_LINK](#).
- Technologies Used: **Html5** - **CSS3** - **JavaScript**.
